

THE FISHBOWL GAME

1. Divide into two equal teams and randomly determine which team goes first in Round 1. Alternate who goes first in the following rounds.
2. The team's Captain draws slips of paper and attempts to describe or act out (depending on the rules of the round) as many phrases as they can in **one minute**. At the end of the turn, tally up how many phrases the team guessed correctly.
3. Repeat with each team taking turns and alternating Captains until all the phrases have been guessed. The phrases then go back in the Fishbowl and teams move to the next round.
4. At the end of three rounds, the team with the most points wins.

FISHBOWL GAME ROUNDS

1

Description Round

The Captain describes the phrases without using any words in the phrase.

2

Charades Round

The Captain acts out the phrases with no speaking, mouthing words, or noises of any kind.

3

One Word Round

The Captain describes each phrase using only one word.
