

# Trivia Game Rules

**1. Divide into two equal teams and randomly determine which team goes first.**

Note that there is no advantage to going first in this game.

**2. The Reader draws a question and reads it to the team whose turn it is. They have 30 seconds to answer, and score a point if they get it right.**

Players get only **one chance** to answer the question. They should put their heads together and discuss what their answer will be.

**3. If the team fails to answer the question correctly, the other team gets a chance to “steal.”**

The opposing team gets 30 seconds to answer the question, and if they are successful, they get the point.

**4. Continue in like fashion, with each team taking turns, for however many rounds you like.**

If you're not using a neutral referee to read questions, teams should alternate who serves as the Reader.

**5. The team with the most points wins.**

In the case of a tie, continue the rounds (one turn for each team) until a round ends with one team ahead.
